Symposium on “Tectonics of Taiwan”

Venue: 2nd Floor Conference Room,
Institute of Earth Sciences, Academia Sinica

Date: April 13th, 2017

Time	Talk	Speaker
13:25-13:30	Welcome remarks to Prof. Eldridge M. Moores and Speakers	Director: Lou-Chuang Lee <i>IES, Academia Sinica</i>
13:30-13:50	Cenozoic tectonics and basin development in Taiwan	Prof. Andrew Tien-Shun Lin <i>National Central University</i>
13:50-14:10	Tectonics of Taiwan from geophysical observations	Prof. Hao Kuo-Chen <i>National Central University</i>
14:10-14:25	Discussion	
14:30-15:30	Ophiolites and Trans-Pacific tectonics	Prof. Eldridge M. Moores <i>University of California, Davis</i>
15:30-16:00	Coffee Break	
16:00-16:20	The East Taiwan Ophiolite: an example of a young, ridge-type ophiolite?	Prof. J. Gregory Shellnutt <i>National Taiwan Normal University</i>
16:20-16:40	High-pressure metamorphic rocks of the Yuli belt, eastern Taiwan	Prof. Chin-Ho Tsai <i>National Dong Hwa University</i>
16:40-17:00	Subduction vs. post-collisional magmatism: a reappraisal of distinctive tectono-magmatic features of late Pliocene-Quaternary volcanism in northern Taiwan	Doctor: Kuo-Lung Wang <i>IES, Academia Sinica</i>
17:00-17:30	Discussion
