## 合成孔徑雷達研究室(SARLab)歡迎你的加入！

(相關網址：<https://www.earth.sinica.edu.tw/member/info/26>)

本研究室主要進行合成孔徑雷達影像相關技術的開發，目前主要的研究課題為變遷偵測與層析成像等相關技術。如果你有合成孔徑雷達相關資料處理經驗，對於精進自己的處理技術以及演算法開發有興趣的話，歡迎來加入我們！

### 人員徵求

需求職稱：專任研究助理 1 名

基本學歷：博士或碩士

相關領域：地球科學、地理學、測量學、遙測學、資訊工程

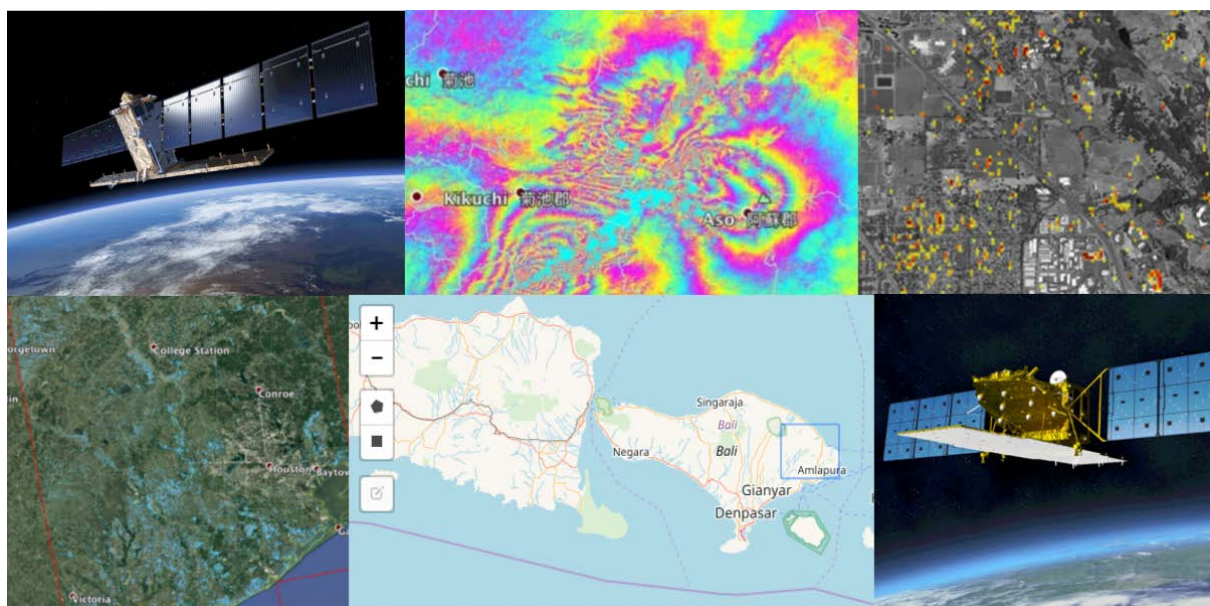

相關能力：Python scripting, MATLAB scripting, remote sensing data processing, English communication (moderate/strong)

工作範圍：影像處理流程開發、演算法開發、模組開發

起聘日期：即日起

合約期限：1 年 (可延長)

意者將履歷寄給林玉儂博士 [ninalin@earth.sinica.edu.tw](mailto:ninalin@earth.sinica.edu.tw), 02-2783-9910#1426

## Welcome to SARLab!

(Check our website: <https://www.earth.sinica.edu.tw/member/info/26?lang=en>)

Our lab focuses on technological development related to Synthetic Aperture Radar images. Our recent research topics include change detection and SAR tomography. If you have related experiences and are interested in SAR data processing and algorithm development, you are welcomed to join us!

Principal Investigator: Dr. Nina Lin

### Position Opening:

Title: Full-time Research Assistant

Education level: Master/PhD in earth science, geomatics, computer science

Job requirement: Python scripting, MATLAB scripting, remote sensing data processing, English communication (moderate/strong)

Job specifications : research and development of processing flow, algorithm and modules, hazard-related topics

Earliest Start Date: any time

Contract Period: 1 year (can be extended)
