

Assistant position in seismology at the Institute of Earth Sciences (IES), Academia Sinica, Taipei (Taiwan)

- Duration : 1 years (with possible extension of 1 year).
- Requirement : English speaker required (at medium level). Knowledges in signal processing and Matlab/Python (or others) softwares.
- We are looking for an assistant researcher for conducting research in the field of seismology :
  - (1) processing of seismic signals to uncover signatures of aseismic deformation in the Longitudinal Valley, in eastern Taiwan
  - (2) processing of seismic, atmospheric and strain signals to investigate the mechanisms of infrasound generation in eastern Taiwan

Candidates interested by the position can contact Alexandre Canitano (PI) [canitano@earth.sinica.edu.tw](mailto:canitano@earth.sinica.edu.tw) or Hsiao-Fan Lin [hsiaofan@earth.sinica.edu.tw](mailto:hsiaofan@earth.sinica.edu.tw)
