| Articles                                                                                                                                                                                        | PAGE |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>Special Section: On the May 20, 1986 Hualien Earthquake</b>                                                                                                                                  |      |
| The May 20, 1986 Hualien, Taiwan Earthquake and its Aftershocks...<br>..... <i>Kou-Cheng Chen and Jeen-Hwa Wang</i>                                                                             | 1    |
| A Study of Aftershocks of the 20 May 1986 Hualien Earthquake.....<br>..... <i>Zen-Sen Liaw, Chengsung Wang and Yeong Tein Yeh</i>                                                               | 15   |
| The Hualien Earthquake of May 20, 1986: Strong Ground Motion Data<br>and Response Spectra..... <i>Chu-Chuan Tsai, Yeong Tein Yeh,</i><br><i>Kuo-Liang Wen, Shih-Nan Cheng and Ming-Hung Kao</i> | 29   |
| Repeat Measurement of Gravity in Taiwan: Anomalous Gravity Related<br>with the May 20, 1986 Hualien Earthquake.....<br>..... <i>Horng-Yuan Yen, Yih-Hsiung Yeh and Cheng-Horng Lin</i>          | 65   |
| Coseismic Deformation Associated with the May 1986 Hualien Earth-<br>quake..... <i>Shui-Beih Yu and Chi-Ching Liu</i>                                                                           | 73   |
| Ground-Water Radon Variation Associated with the May 20, 1986 Hua-<br>lien, Taiwan Earthquake.....<br>..... <i>Kon-Kee Liu, Yih-Hsiung Yeh and Ta-Liang Teng</i>                                | 85   |
| <b>Regular</b>                                                                                                                                                                                  |      |
| A Study of the Crustal Velocity Structure in Eastern Taiwan.....<br>..... <i>Chi-Wai Lee, Chengsung Wang and Zen-Sen Liaw</i>                                                                   | 95   |
| Duration-Magnitude Correction for Taiwan Telemetered Seismographic<br>Network..... <i>Tzay-Chyn Shih</i>                                                                                        | 109  |
| The Synthesis of Complete Seismograms with an Application to the<br>SMART-1 Data..... <i>Chien-Ying Wang and Yeong Tein Yeh</i>                                                                 | 121  |
| Paleomagnetic Study of the Chimei Igneous Body, Coastal Range, Eastern<br>Taiwan..... <i>T.P. Yen and Min Ju</i>                                                                                | 141  |
| Magnetic Fabric of the Chimei Igneous Body, Coastal Range, Eastern<br>Taiwan..... <i>Teh-Quei Lee</i>                                                                                           | 157  |

第六卷

中華民國七十五年十二月

慶祝 吳院長大猷先生八十壽辰論文集

| 論著                                                            | 頁   |
|---------------------------------------------------------------|-----|
| 專輯:七十五年五月二十日花蓮地震                                              |     |
| 一九八六年五月二十日花蓮地震及其餘震·····陳國誠 王錦華                                | 1   |
| 1986年5月20日花蓮地震之餘震研究·····廖政賢 王正松 葉永田                           | 15  |
| 1986年5月20日花蓮地震:強震地表震動紀錄與反應震譜·····<br>·····蔡主權 葉永田 溫國樑 鄭世楠 高銘鴻 | 29  |
| 台灣重力重複觀測:與民國七十五年五月二十日花蓮地震相關之重力變化··<br>·····顏宏元 葉義雄 林正洪        | 65  |
| 1986年5月花蓮地震之同震地殼變形·····余水倍 劉啟清                                | 73  |
| 一九八六年五月二十日花蓮地震前後之水氣異常變化·····<br>·····劉康克 葉義雄 鄧大量              | 85  |
| 一般                                                            |     |
| 中央山脈東緣及海岸山脈底下地殼波速構造之分析解釋·····<br>·····李志偉 王正松 廖政賢             | 95  |
| 臺灣遙記式地震觀測網的總振動規模修正·····辛在勤                                    | 109 |
| 完全震波之合成及其應用·····王乾盈 葉永田                                       | 121 |
| 臺灣東部海岸山脈奇美火成岩體之古地磁學研究·····顏滄波 朱 敏                             | 141 |
| 臺灣東部海岸山脈奇美火成岩體磁性組構之研究·····李德貴                                 | 157 |
| 秀姑巒溪流域沉積岩之古地磁研究·····<br>·····李德貴 凱瑟琳·基謝 洪崇勝 呂懿德 卡羅·萊          | 169 |
| 中國南海晚更新世深海沉積物之穩定同位素記錄·····<br>·····汪中和 陳民本 羅聖宗 吳榮章            | 185 |
| 蛇紋岩與蛇紋石化作用之氫、氧同位素研究·····俞震甫 葉學文                               | 197 |
| 綠島,蘭嶼與小蘭嶼安山岩之鉬鋁同位素研究:噴發年齡和同位素組成之不<br>均勻性·····藍晶瑩 沈君山 李太楓      | 211 |

## 簡錄

臺灣遙記式地震觀測網地震記錄圖之微縮影…………… 王錦華 蔡義本 陳國誠 227
