EDUCATION

National Taiwan University, Taipei, Taiwan, R.O.C.
Department of Geosciences, Ph.D., August/2019
GPA: 3.85/4

National Taiwan University, Taipei, Taiwan, R.O.C.
Department of Geosciences, M.S., July/2008
GPA: 4.0/4 Rank: 1/13

National Chung Cheng University, Chia-Yi, Taiwan, R.O.C.
Department of Earth and Environmental Sciences, B.S., June/2006
GPA: 3.42/4 Rank: 7/38

WORK & ACADEMIC EXPERIENCE

Academia Sinica, Institute of Earth Sciences, Taipei, Taiwan, R.O.C.
Research Assistant, August/2008-present
Participated in research team led by Dr. Horng-Yue Chen
I investigate crustal deformation pattern along the southern Longitudinal Valley Fault (LVF), an extremely active inverse fault considered as a collision boundary between the Eurasian and the Philippine Sea plates, by using SAR interferometry, GPS and precise leveling data.

National Taiwan University, Department of Geosciences, Taipei, Taiwan, R.O.C.
Ph.D. student/Research Assistant, February/2014-August/2019
Participated in research team led by Dr. Jyr-Ching Hu; laboratory of geodesy and remote sensing. <http://www.gl.ntu.edu.tw/geodesy/>

Kainan University, Department of Information management, Taoyuan, Taiwan, R.O.C.
Research Assistant, August/2008-March/2009
Participated in research team led by Dr. Pu-Huai Chen
In this project, I focus on land subsidence from 1996 to 2000 in Yunlin area. Due to the dense vegetation, it is hard to get the time series distribution of land deformation by using conventional DInSAR technique. For that reason, I used the stacking DInSAR and PSInSAR technique to complete the deformation variations.

National Cheng Kung University, Tainan Hydraulics Laboratory, Tainan, Taiwan, R.O.C.
Research Assistant, December/2006-December/2008
Participated in research team led by Dr. Chung-Hong Song
I handled the ordering and scheme of all the images; processed and analyzed temporal and spatial variations of land subsidence from 1996 to 2000 in Taiwan by conventional DInSAR.

National Taiwan University, Department of Geosciences, Taipei, Taiwan, R.O.C.
Graduate student/Research Assistant, September/2006-July/2008.
Participated in research team led by Dr. Jyr-Ching Hu; laboratory of geodesy and

CURRICULUM VITAE

Hsin Tung

remote sensing. <http://www.gl.ntu.edu.tw/geodesy/>

National Taiwan University, *Department of Geosciences*, Taipei, Taiwan, R.O.C.
Teaching Assistant, “Introduction of Remote Sensing”,
course taught by Dr. Jyr-Ching Hu

National Taiwan University, Department of Geosciences, Taipei, Taiwan, R.O.C.
Teaching Assistant, “Introduction to field geology II”,
course taught by Dr. Jyr-Ching Hu

National Chung Cheng University, *Department of Earth and Environmental Sciences*, Chia-yi, Taiwan, R.O.C.
Teaching Assistant, “The Knowledge of Oceans”,
course taught by Dr. Yu-shieh Ma

National Chung Cheng University, *Department of Earth and Environmental Sciences*, Chia-yi, Taiwan, R.O.C.
Participated in research team led by Dr. Chau-Huei Chen; Laboratory of Seismic data Analysis. <http://www.eq.ccu.edu.tw/~lab408/>

GRADUATE COURSEWORK	Computer programming Radar remote sensing The seismological observatory Engineering Mathematics	Geophysics Introduction of remote sensing Structural Geology Probability and Statistics in Geosciences	
SPECIAL SKILL	Linux GMT Microsoft Office Diapason ISCE	MATLAB ArcGIS Dreamweaver ROI-PAC FRAM-SBAS	FORTRAN CorelDRAW PCI Geomatica StaMPS Doris
AWARDS	The 3rd place award of presentation, The 16 th Young Scientist Forum Link Earth Technology Co. Scholarship Presidential Award, <i>Department of Earth and Environmental Sciences</i> , National Chung Cheng University Scholarship funded by Chinese Geophysical Society	2008 2005 2004 2003
