

Lesley Suz-chung Ko (克思忠) is the Director for Cementitious and Sustainable Materials at Structural Technologies Solutions LLD, in the USA. Prior to joining Structural Group, she managed the Concrete Admixture Product Development Group in North America for BASF Construction Chemicals and Master Builders Solutions. Lesley graduated from National Taiwan University with a Bachelor and a Master degree in Geology and earned a PhD degree in Earth Science (Rock Mechanics) from Swiss Federal Institute of Technology (ETH-Zurich). She has more than 25 years experiences in sustainable cement and concrete development and applications and used to work for a global cement and concrete manufacturer – Holcim Technology in Switzerland. She serves as Vice Chair of Concrete Innovation Council at American Concrete Institute (ACI) Foundation; and as a member of various ACI and ASTM (American Society for Testing and Materials – Standard Organization) Technical Committees for alternative cements, 3-D Printing with Cementitious Materials; Chemical Admixtures; and Non-hydraulic Cements.
