

Collapsing Arctic glaciers: How does their dynamic imbalance link to a warming climate and contribute to sea level?

Whyjay Zheng

2023.09.14

Mean glacier elevation change between 2012 and 2021 (2- σ):
Entire Svalbard & Jan Mayen (RGI region 7): -6.32 ± 0.87 m
Edgeøygjøkulen area (map below): -10.67 ± 0.70 m
